How Steve Jobs Changed The World

In the aftermath of the death of the most inspirational innovator of the 21st Century, this new documentary takes an in-depth look at the life and work of Apple founder and boss: Steve Jobs.

We examine how and why his vision has revolutionised the world, defining not just our generation but, also defining all future generations to come.

With access to colleagues, historians, futurists and technology experts we send viewers on a journey to discover the story behind Steve Jobs's most visionary creations.
